1838 One Hundred Years 1938
of Dreer Service to Horticulture

Nature's wondrous beauty—what a never ending source of inspiration to the human mind. Gentle she exerts her influence upon our daily lives. Entering upon the second century of Dreer Service to Horticulture we pause to let pass in review the growth and progress of the Dreer business, started a hundred years ago. A gentleman in beaver hat and knee breeches courtely helps a charming lady in bustle and bonnet leaving her carriage for a visit to the first Dreer store at 97 Chestnut Street, Philadelphia. Thrifty old Quaker ladies are choosing with care the seeds for a garden of beauty and usefulness. The years go by: outstanding styles and changing viewpoints, yet flowers always are in style with an ever increasing demand for seeds and plants to bring more beauty to the garden. How many wonderful new flowers there are today. Planted alongside of old favorites they merge into a picture of sublime loveliness. The realization that for a hundred years Dreer's have helped to bring more joy and beauty into the lives of young and old is an even greater inspiration to us than a review of our business accomplishments.

Directions to Customers

Order Early—We suggest that you send us your order as early as convenient. Please keep a copy of the order with which to check the goods when received.

Name and Address—Please remember to write on each order and letter your full name, Post Office, County, and State. Also give the street name and house number, or P. O. Box beside the nearest Express Office.

Cash With Order—Remit by Post Office Money Order, Express Money Order, Draft, or Check. If you send cash, register your letter. We cannot be held responsible if these directions are not followed. If you request goods which are "Not Prepaid" to be shipped by Parcel Post please include in your remittance the cost of postage and special packing as explained below. We decline sending goods C. O. D. (Collect on Delivery). Prices are subject to change without notice.

Packing—No charge is made for boxes nor packing on express or freight shipments nor for delivery to freight depot or express office in Philadelphia. The extra cost of "special packing" for parcel post shipments of plants and roots is included in the charges noted below.

"Prepaid" and "Not Prepaid" Shipments in the U. S. A. and Possessions

Seeds Sent "Prepaid"—All Vegetable Seeds, Flower Seeds, and Lawn Grass Mixtures are sent "Prepaid" to any Post Office in the United States or its possessions, or at our option by Express or Freight Prepaid. Customer bears the cost of transportation on all other articles quoted "Not Prepaid".

Plants, Roots, and Bulbs Forwarded "Not Prepaid"—All Plants, Roots, and Bulbs are forwarded "Not Prepaid" by Express which means that the customer pays the cost of transportation. 10% of their value, east of the Mississippi
15% of their value, west of the Mississippi
Minimum charge 10c

We recommend to our customers to have their Plants, Roots, and Bulbs forwarded by Express as our experience shows that this method is usually the most satisfactory, except on small packages.

Sundries—Sundries, except where quoted "Postpaid", are sent either by express or freight the purchaser paying transportation charges.

Local Delivery—There is no charge for delivery of goods in Philadelphia and surrounding counties.

Time of Shipments—All Seeds, Dormant Roots, Bulbs, and Sundries are forwarded as soon after receipt of order as possible unless shipment at a later time is requested on the order sheet. Roses for the garden will be shipped at proper planting season unless otherwise specified on the order sheet.

Safe Arrival of Packages—We guarantee safe arrival of all goods sent by express or mail to any point within the United States proper. If such packages are injured or lost we will replace them as soon as notified of the fact. Goods sent in any other way travel at purchasers' risk. Claims for damages or errors must be made on receipt of goods. We cannot be held responsible for failure after delivery of goods in good conditions.

Non-Warranty

We give no warranty, express or implied, as to description (including kind, variety, and name), quality, or productiveness of any of the seeds, bulbs, or plants we send out and will not in any way be responsible for the crop, and every order for articles purchased from this catalog will be accepted on these conditions only.

Correspondence—Your inquiries will have our prompt attention but we ask that all questions be stated clearly and briefly. Give them on a piece of paper separate from the order sheet and always add your full name and address to each.

Ageratum, Dwarf Compact Fairy Pink

1046 Blue Ball Improved (Blue Boy). Of even, compact growth smothered with flowers of the richest shade of blue. Pkt. 25c; special pkt. 75c.

1052 Dwarf Compact Fairy Pink. An exceptionally dwarf compact variety not more than five inches high, covered with salmon rose-pink blooms. Pkt. 25c; special pkt. 75c.

Two Beautiful New

Aquilegia—Columbine

1210 Clematidis. This glorious new Columbine is entirely distinct, having flowers which greatly resemble those of a Clematis. Of medium height, free blooming, and very colorful. Pkt. 50c; special pkt. $1.50.

1215 Long-Spurred Crimson Star. A very showy variety growing 18 inches high. Has elegantly formed long-spurred blooms of a deep coppery crimson with white corola. Pkt. 25c; special pkt. 75c.

Gorgeous New

Crego Aster—1282 Enchantress W-R.

Enchantress presents an entirely new color in Asters—a luscious shade of lively salmon-rose which is distinct from all other colors yet developed. The blooms are large and well-formed. They are produced in great abundance on vigorous, well-branched, wilt-resistant plants. The blooming season falls into early September. Pkt. 25c; special pkt. 75c.

Dreer’s Six Famous American Asters

The following six sorts embrace several distinct types and colors, which we feel sure will, on account of their free growth, profuse flowering, large size, and general excellence, give entire satisfaction to the most critical growers of this popular flower.

1265 Purple Beauty W-R. Very large double flowers of a rich glittering purple. Pkt. 15c; special pkt. 60c.

1278 California Giant, Rich Rose. Beautifully curled and interlaced flower petals. Blooms 5 inches across. Pkt. 15c; special pkt. 60c.

1335 Dreer’s Peerless Pink W-R. The finest shell pink Late Branching Aster. Pkt. 15c; special pkt. 50c.

1337 Sensation W-R. The reddest of all red Asters, the color being a rich garnet or ox-blood red. Pkt. 15c; special pkt. 50c.

4752 Collection of Dreer’s 6 Famous Asters.

One packet each of the above 6, value 80c, for 60c.
Novelties and Specialties

You are bound to enjoy the newer varieties of flowers particularly. For Autumn blooming, Flame of Fire Celosia has no equal and the Ultra-Double Cornflowers represent a wonderful advance in this showy class of annuals.

Calendula, Orange Fantasy

**Calendula—1569 Orange Fantasy**

This new crested Calendula comes perfectly true and represents an entirely new type. The outer petals are long and beautifully twisted whereas the inner ones are much shorter and irregularly arranged giving the flower a crested appearance. The individual blooms measure 3½ inches in diameter and are bronzy or coppery-orange with deep mahogany red petal edges. Pkt. 25c; 5 pkts. for $1.00.

Celosia pyramidalis, Flame of Fire

**Celosia pyramidalis** 1859 **Flame of Fire**

Among the many novelties of recent years this Celosia stands out as a very distinct and desirable annual. The plants grow about 18 inches in height, forming perfect little pyramids with each branch ending in a heavy, large, round cone of a most brilliant and intense rich crimson. The formation of the flower heads is entirely distinct from all other Celosias. The fact that it blooms from August until October is a feature that makes it particularly valuable. Wonderful for garden display, for cutting, and in pots. Pkt. 25c; special pkt. 75c.

Centaurea, Jubilee Gem

**New Dwarf Double Cornflower △ 1867 Jubilee Gem**

Charming compact plants about 12 inches high covered completely with double dark blue flowers. Splendid for dwarf beds and a very showy subject for growing in pots. Pkt. 20c; special pkt. 50c.

Dreer’s Ultra-Double Cornflowers

**Dreer’s Beautiful New Ultra-Double Cornflowers**

*Centaurea cyanus*

This superb new strain is bound to replace the older type because the flowers not only are considerably more double but also larger, each bloom forming a lovely large fluffy ball carried on a long and strong stem.

1871 **Black Boy.** A rich and appealing deep maroon.
1873 **Blue Boy.** Exquisite Cornflower blue.
1875 **Pinkie.** Glorious blooms of bright rose.
1877 **Red Boy.** The finest of the red shades.
1879 **Snow Man.** Graceful large white blooms.

*Any of the above:* Pkt. 15c; special pkt. 25c; ½ oz. 50c.

**100th Anniversary Offer**

New Annual
Chrysanthemum
1937 Golden Crown

The annual Chrysanthemums are valuable material for garden display and for cutting. They do best where summer weather is not excessively hot. In Golden Crown we have a magnificent new variety of coronarium, growing into vigorous, strong, well-branched plants three to four feet in height. Every plant is covered with 50 to 60 lovely large double blooms of bright butter yellow color which forms a good contrast to the silvery green foliage. Pkt. 25c; 5 pkts. $1.00.

New Extra-Early
Cosmos, Sensation

Sensation Cosmos has been appropriately named for indeed it is a Sensation in every sense of the word. One of its most important features is the fact that it will bloom two weeks ahead of any other strain. The plants are vigorous and branch freely bearing an abundance of extra-large well-rounded blooms of exceptionally large size. They measure 4 inches across and on disbudded plants will reach a diameter of 6 inches. This year we are able to offer two separate colors besides the mixture.

2038 Pinkie. Magnificent blooms of a bright and pleasing pink color. Pkt. 20c; special pkt. 75c.
2039 Purity. Enormous well-formed blooms of pure white with small yellow center. Pkt. 20c; special pkt. 75c.
2040 Sensation Mixed. A blend of pink and white. Pkt. 15c; special pkt. 50c; ½ oz. 75c.

Dreer’s De Luxe Hybrid Korean Chrysanthemums

A Scintillating New Strain of
Hardy Chrysanthemum

1944 Dreer’s De Luxe Korean Hybrids

Our efforts to improve the quality of our Korean Hybrid Chrysanthemums have resulted in an extra-fine strain of superb beauty. The standard of every factor contributing to the glory of these hardy Mums has been raised beyond our fondest hopes. Their earliness to bloom, the size of the individual flowers, and the magnificent range of carefully selected colors will provide the gardener with a spectacle beyond description. It includes a generous percentage of semi-double and double flowering plants. Pkt. $1.00; 3 pkts. $2.50.

1942 Korean Hybrids. This is our regular strain which for a number of years now has created a sensation. It includes a splendid selection of colors and the bushy well-rounded plants bear great masses of single and semi-double blooms. Pkt. 50c; special pkt. $1.50.

Dreer's Giant Pacific Hybrid Delphinium

The Sensational New Strain from the Pacific Coast

Delphinium experts throughout the country have expressed great enthusiasm about this marvelous new strain. The Giant Pacific Hybrids are truly sensational and reports from many different sections of the country as well as foreign lands are unanimous in their praise. They received most favorable comments in the 1936 Yearbook of the American Delphinium Society by an outstanding authority on Delphinium who, himself, is a breeder of note.

"The Most Beautiful Delphinium I have ever seen"

These are the very words of one of our own experts on a recent visit to the Pacific coast. His opinion is shared by others who say . . . amazingly fine precision of placement of florets . . . rarely a single . . . nicely formed bees . . . fine foliage . . . unusual uniformity of habit . . . marked disease resistance . . . impressive tall spikes of slightly tapering formation. Plants with white bees predominate.

The Giant Pacific Hybrids stand out as the showiest and most glorious of all Delphinium. Under favorable conditions the plants will reach truly gigantic heights, yet every flower spike is well formed. The individual flowers are huge. They measure 2 to 3 inches in diameter and are beautifully spaced on a well balanced, long spike. The wiry stems are slender but strong and the colors represented have been chosen with extreme care. A large percentage of the plants have proved decidedly resistant to mildew.

Giant Pacific Hybrids

Already we have received quite a number of most complimentary reports from gardeners who gave these new Giant Pacific Hybrid Delphinium a trial during the past season. Every gardener interested in Delphiniums should certainly give this strain a thorough trial this year.

2171 Dark Blue Shades.
2173 Light Blue Shades.

2180 Giant Pacific Hybrids, Mixed Blue Shades.
A magnificent strain including a great range of beautifully varied shades of blue carefully selected for desirable colors of artistic merit. Pkt. 50c; special pkt. $2.00.

Note the beautiful proportions and artistic balance of these spikes

4 How to Grow Delphiniums (Leonian). $1.10 per copy, postpaid
**in Flower Seeds for 1938**

**Gaillardia Grandiflora** [HP]

2441 Goblin

This new dwarf compact-growing Gaillardia greatly widens the scope of this useful flower which now may be included in the dwarf border where other varieties were too tall. The plants grow 12 to 15 inches high and are covered with large showy yellow blooms bordered with deep red. Pkt. 25c; special pkt. 75c.

**2551 Gypsophila Oldhamiana** [HP]

A splendid new hardy Gypsophila for border planting. It is of dwarf, somewhat spreading growth and well adapted to the border or rock garden where the lovely pinkish blooms will give a magnificent display from the middle of July onwards. Pkt. 15c; special pkt. 50c; ½ oz. 75c.

**2758 Lavandula, Twickel’s Purple** [HP]

This beautiful new Lavandula received a Certificate of Merit from the Royal Horticultural Society of Great Britain. It is far superior to any other Lavender we have ever seen. The plants are perfectly hardy and of rather dwarf habit. They produce a great abundance of deep lavender-blue flower spikes which have the typical rich Lavender fragrance. 18 in. Pkt. $1.00.

**2866 Lupinus, Russell Hybrids** [HP]

A most remarkable new strain of Hardy Lupines from Great Britain

The wide publicity given to these new Lupines in all the leading gardening papers of this country is bound to induce many gardeners to give them a trial during the coming year. The Russell Hybrid Lupines have proved the most outstanding hardy Lupine ever developed. A Gold Medal awarded by the Royal Horticultural Society of Great Britain in June 1937 is ample proof as to what English gardening experts think about it. The plants grow into well-rounded, well-branched bushes, each developing a number of extra-large spikes closely set with flowers. One of the most outstanding features of this strain is the range of beautiful colors—deep yellow, orange, red, and brilliant bicolor combinations never seen before in hardy Lupines. Pkt. (10 seeds) 25c.

**3159 Nierembergia Hippomanica** [Δ]

**Blue Cups**

A wonderful new annual growing 4 to 6 inches high but spreading to a width of a foot or more. The graceful, slender, bright green foliage is hidden by a mass of cup-shaped lavender-blue flowers which measure more than an inch in diameter. Blooms profusely throughout the summer and autumn. Pkt. 25c; special pkt. 75c.

**3248 Shakespeare’s Pansies**

This lovely strain of Pansies was discovered five years ago. The simplicity of the flower suggested saving the seed for propagation and when later on the grower chanced to glance over an old flower hook he was surprised to find that what he had was practically identical with the Pansy as it was grown during Shakespeare’s time. It is a simple quaint little Pansy suitable for any location in the garden and can be grown easily wherever Pansies are successful. Its form, habit, and time of flowering coincide with that of Viola Papilio. Pkt. 50c; special pkt. $1.25.

They are showy subjects in the garden and equally as much admired when displayed in the house as cut flowers. The color is a deep golden yellow. Forms sturdy plants about 2½ to 3 feet in height. Pkt. 15c; special pkt. 50c.

4595 Gaillardia-Flowered Mixed (Navajo)

The flowers have such a great resemblance to a double Gaillardia that many people would take them for such. The blooms are very attractive, of medium size with a diameter of about 2 inches. They are carried on strong stems of medium length. The colors range through tones of rose, pink, bronze, orange, yellow, lavender, and combinations of these colors. Grows 2 feet high. Pkt. 15c; special pkt. 60c; ½ oz. $1.00.

Lovely Little Zinnia

4595 Linearis

A charming dwarf single-flowering Zinnia with showy bright orange blooms showing a ribbed yellow stripe through the center of each petal. The plants measure 8 inches high and 2 feet across. Pkt. 20c; special pkt. 75c.

Zinnia mexicana, Halo or Gipsy Girl

Annual Alyssum © △
Sweet Alyssum, Madwort

The annual varieties are pretty, little plants for beds, vases, baskets, edging, or rockwork. They bloom profusely all during the summer and fall when they are a delightful sight. They also are useful for winter flowering.

1071 Carpet of Snow.

1073 Compactum minimum. This special strain of Alyssum is most desirable on account of its extremely dwarf, compact growth. The plants grow about 2½ inches high and are covered with white blooms. Pkt. 10c; ½ oz. 30c; oz. $1.00.

1075 Lilac Queen Improved. A very pretty, deep lavender-lilac. Of dwarf, compact habit; 6 inches high. Pkt. 10c; ½ oz. 30c; oz. $1.00.

The Popular Snapdragons

Snapdragons are great favorites. They are easily grown from seed blooming continuously throughout the summer and fall. If protected during the winter, midsummer sowings will produce particularly fine flowers during the following spring. Just cover them with a bottomless box and a pane of glass over the top. The germination of Snapdragon seed has proved to be easiest if finely sifted coal ashes are used as a seed bed. Prepare your seed pan in the usual way and add a layer of finely sifted coal ashes ½ inch deep on the top. Sow the seed thinly on top of the ashes and water carefully. Keep moderately moist in a fairly warm place until the seedlings appear.

Six Rustproof Maximum Varieties

The development of these new Rustproof Snapdragons is one of the greatest accomplishments ever made by plant breeders. It is possible now to have them grow to perfection even where the old strain has proved a complete failure due to rust infection. These new Maximum varieties grow about 3 feet in height and bear an abundance of long, strong flower stems set with giant blooms of perfect form. As they are highly rustproof, success with them is most certain.

1187 Alaska. A very lovely variety with magnificent and stately spikes closely set with mammoth white blooms. Produces from 12 to 14 spikes to each plant.

1189 Campfire. A really marvelous new variety with gorgeous blooms of a pure luminous scarlet enhanced by a bright golden yellow lip. Produces 15 to 18 spikes per plant.

1191 Canary Bird. The glistening canary yellow flowers give a splendid effect. They are very large and beautifully arranged on a fine strong spike. 12 to 14 spikes per plant.

1193 Copper Shades. A marvelous blend of copper shades ranging from light coppery gold to deep rich velvety coppery orange. Has 12 to 16 spikes per plant.

1195 Crimson. Outstanding not only for its pure crimson flowers but also for the rich green foliage and dark plum-colored stems. Very vigorous and free flowering.

1197 Loveliness. Pure soft rose-pink flowers of splendid form and extra-large size. Gives a marvelous display with 12 to 16 spikes produced to a plant.

Any of the above: Pkt. 15c; special pkt. 75c.

Dreer’s Selected List of Newer and Better Vegetables

In each class of vegetables we find some that are superior to others in one or another characteristic. It may be extra earliness, particularly attractive appearance, superior flavor, or an ideal combination of many desirable factors. Such vegetables logically become leaders and among such leaders the finest strains are most eagerly sought by the growers.

On this and the following pages we offer what we know to be prize strains of distinctly worth-while leaders among the most useful vegetables. They are not necessarily novelties but rather specialties which have won their way to the top through meritorious performances in gardens of Dreer customers everywhere.

23 Bean—Bountiful

A most remarkable Bush Bean with bright green pods measuring 6 inches long and 2-inch wide. They are brittle, tender, perfectly stringless, and very tasty. Enjoyed a tremendous popularity as it contains good quality and with vigorous growth and remarkable resistance to disease. It has proved of particular value on lighter soils where the Round-Pod varieties often fail to produce satisfactory crops. Bears the bulk of its crop within 75 days after planting with the first picking being ready in about 60 days. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 75c; 5 lbs. $1.65.

110 Bush Lima—McCrea’s

With so many good Lima Beans already in existence one may wonder as to the desirability of adding still another variety to the list. Those who will grow this new McCrea’s Bush Lima will readily understand our reason for recommending this new variety. It is without question the sweetest of all Lima Beans. Though its sweetness is without doubt the most outstanding characteristic, it has many other splendid features that will appeal to both home gardeners and canners. The habit of the plants is vigorous and strong. The growth is upright and there is an abundance of rich green foliage. The short stout pods are very thick. Each pod contains from 3 to 5 large, plump, bright green beans which are so tightly packed in the pod that many of them are almost square. Very productive and of good flavor. Pkt. 15c; ½ lb. 25c; lb. 45c; 2 lbs. 85c; 5 lbs. $1.95.

It will pay you to grow these New and Better Vegetables for increased yield and finer quality.

204 Cabbage—Golden Acre

This excellent variety is the earliest round-headed cabbage in existence. It will mature at least 7 days ahead of the regular strains of Jersey Wakefield, considered the standard early of the country. The heads of Golden Acre are perfectly round, firm, and of exceptionally fine texture there being no heavy mid-ribs. An average head weighs about 4 pounds and most of this weight is head since there are but few outer leaves. May be planted close in the row. Pkt. 15c; ½ oz. 30c; oz. 50c; ½ lb. $1.50.

223 Chinese Cabbage Improved Peking

A most desirable variety of this delectable and palatable vegetable. Forms a long compact head which blanches to a creamy white except the few outer leaves which are bright green. Very crisp and tender being excellent served as cole slaw or cooked like Cabbage. Has a milder, more pleasing, and finer flavor than ordinary Cabbage. Sow between mid-July and early August for a crop in late fall. Pkt. 10c; ½ oz. 25c; oz. 40c; ½ lb. $1.00.

162 Beet—Rosebud

We consider this new Beet worthy of a place in every garden because it combines most attractive appearance with choice quality. The roots are perfectly round having a very small neck and a thin tap root. They are smooth and free from undesirable side roots. The skin is rich red and the flesh beneath is a beautiful deep red showing no light zones. Ideal for canning and pickling as well as for home cooking. Most delicious when 1½ inches in diameter. Pkt. 10c; oz. 25c; ½ lb. 60c; lb. $1.50.

237 Carrot—Imperator

This Carrot represents a most desirable combination of choice eating qualities and splendid appearance. The roots grow 7 to 8 inches long. They have a broad shoulder and gradually taper toward a fine thin tap root. Due to their form they are easy to harvest. The flesh also is most attractive—a rich deep orange. Being exceptionally fine grained it cooks very tender besides having a sweet and mild flavor. Pkt. 10c; oz. 25c; ½ lb. 65c; lb. $2.00.

327 Sugar Corn

Dreer’s Extra-Early Independence

We highly recommend Dreer’s Extra-Early Independence to all gardeners who desire a first-class early Sugar Corn. The plants make a vigorous growth and produce a splendid crop of large, well shaped ears measuring 6 to 7 inches in length. There are 10 or 12 rows of grains neatly arranged in straight rows around a small cob. The thin-skinned grains are milky white and have a lusciously sweet and toothsome flavor. Well suited to succession plantings for a continued supply. Pkt. 10c; ½ lb. 25c; lb. 40c; 2 lbs. 70c; 5 lbs. $1.65.

383 Cucumber—Longgu

A fancy Cucumber growing 12 to 13 inches in length. Of beautiful appearance with deep green skin and few spines. Greatly resembles the greenhouse product though it is as well suited to growing outdoors as under glass. Its surprising earliness is another of its valuable features. Has beautiful white flesh of rich flavor. Pkt. 15c; oz. 30c; ½ lb. 80c; lb. $2.75.

All Vegetable Seeds offered in this catalog are sent PREPAID within the U. S. A. at the prices quoted.
458 Lettuce—Unrivaled

A handsome early Butterhead Lettuce of extra choice quality. Develops well formed, closely folded leaves with golden yellow hearts within 60 days from sowing. An all season variety for cool sections but best for spring sowing where summers are hot. The well-blanchet heart is crisp and has a rich buttery flavor. Pkt. 10c; oz. 25c; 1 lb. 60c.

Honey Rock Muskmelon

509 Muskmelon—Honey Rock

This new Muskmelon is outstanding for the delicious sweetness and rich aroma of its tender, luscious, salmon-colored flesh. The fruits are almost round. They are of medium size but have extremely thick flesh surrounding the small seed cavity in the center. The skin of the heavy fruits is a gray-green color showing a rough netting. Pkt. 10c; oz. 25c; 1 lb. 60c; lb. $1.75.

559 Mustard Spinach—Tendergreen

Though a Mustard, its mild pleasing flavor is more like that of Spinach. Little affected by hot or dry weather and therefore highly recommended for summer greens. Ready for use 3 to 4 weeks after sowing. Pkt. 10c; oz. 20c; 1 lb. 50c; lb. $1.25.

587 Onion—Valencia

This is the best of the large sweet Spanish Onions. Valued for its exceptionally mild and sweet flavor. We consider it particularly desirable because it will grow to truly enormous size if conditions are anywhere near favorable. In some ways it resembles the popular Prizetaker but the onions are considerably larger and consequently heavier in weight. The onions are round and have a beautiful golden yellow skin and pure white flesh. With the proper culture they will develop into magnificent specimens of the prize-winning type. For exhibition start the seed indoors early and transplant to the garden at the proper season. Pkt. 10c; oz. 25c; oz. 35c; 1 lb. $1.00; lb. $3.50.

588 Onion

White Bunching

This variety does not form any bulbs but it is grown extensively for green onions and scallions. Sow the seed thickly in rows and earth up the plants gradually to blanch the lower 3 or 4 inches of the thick stalks. Pkt. 10c; oz. 25c; 1 lb. 75c; lb. $2.25.

Sugarstick — A really sensational new Sugar Pea, entirely different from all other Peas in existence

The pods are elegantly curved and they have fleshy walls which are entirely free from fiber or hard tissue. The peas in the pods are large and tender, and of the same luscious sweetness as the walls of the pods. If desired, the peas may be shelled and cooked separately so that two distinct delicious vegetables may be secured for table use. The sliced pods make a splendid addition to mixed salads.

The sturdy vines grow 4 feet tall and are very productive. Every gardener should give this new and most distinctive variety a careful trial.

Pkt. 20c; 1/2 lb. 50c; 1 lb. 90c; 2 lbs. $1.75; 5 lbs. $4.00, prepaid.

Many enthusiastic letters have been received from customers who last year grew this most remarkable new Sugar Pea.

696 Sugarstick

This is an entirely new type of Pea differing from the regular garden peas in that the tender, thick fleshed pod is as delectable and fiberless as the large, round peas within. Naturally using the entire tender pods cooked like String Beans produces a great increase of edible luscious produce with the least amount of waste per plant. Sugarstick is a most productive Edible-Podded Sugar Pea.
602 Parsley—Drer’s Exhibition
This new Parsley is bound to become extremely popular as it combines attractive appearance with the finest qualities of a culinary herb. The compact plants are just one solid mass of finely divided and curled leaves of a most pleasing rich and bright deep green color. The finely cut foliage resembles a bunch of moss and it may well be grown as an edge to the flower border on account of its ornamental form. Pkt. 15c; oz. 25c; ½ lb. 75c; lb. $2.25.

611 Parsnip—Short Thick
Many gardeners find that harvesting the long Parsnips is quite a task particularly when grown on heavy soil and this new half-dwarf white variety is therefore bound to become very popular. The roots grow 6 to 7 inches in length tapering from a broad shoulder to a fine tap root. It has a deeply set crown and matures very early. Beautiful, white, sweet flesh which is tender and palatable. Pkt. 10c; oz. 15c; ½ lb. 40c; lb. $1.25.

678 Pea—Pilot Improved
An extra-early variety with large and smooth seeds. May be sown as early in the spring as the ground can be prepared. A great favorite because it is a heavy producer with vines which grow 3 feet high being loaded with pods measuring 3} to 4 inches in length. The large bright green peas have a sweet and delicate flavor. Pkt. 10c; ½ lb. 25c; lb. 35c; 2 lbs. 65c; 5 lbs. $1.50.

711 Pepper—California Wonder
A late Pepper most popular in all parts of the country. The sturdy upright plants bear from 6 to 8 smooth, blocky, deep crimson fruits each. They measure 4} inches in length and 4 inches across. The most outstanding feature of the fruits is the remarkable thickness of their walls. Pkt. 15c; ½ oz. 35c; oz. 60c; ½ lb. $1.75.

758 Pumpkin—Philadelphia Bush
This new Pumpkin should be of the greatest interest to all those who have vegetable gardens of limited size. Being of bush form it is well suited to the smaller garden because it requires no more room than a good-sized Tomato plant. The rounded fruits have a dark green skin which turns a deep orange-yellow. The deep yellow flesh is dry and has a sweet flavor. Splendid for pies, baking, etc. Pkt. 15c; oz. 35c; ½ lb. $1.00.

849 Spinach
Bloomsdale Long-Standing Savoy
An early, hardy Spinach with dark-glossy green leaves which are heavily crumpled and savoyed. It combines all the good qualities of the best savoy strains with remarkable long-staying properties. Will remain in perfect condition 2 weeks longer than other savoy strains. Pkt. 10c; oz. 15c; ½ lb. 25c; lb. 60c.

784 Radish—Glowing Ball
We recommend this new variety most highly as we are sure that the attractive, perfectly round, brilliant orange-scarlet radishes will appeal to every gardener. The flesh beneath the thin skin is a crisp icy white of a snappy and refreshing flavor. Pkt. 10c; oz. 20c; ½ lb. 45c; lb. $1.25.

770 Radish—Cardinal Globe
Few other Radishes exhibit such remarkable uniformity in shape, size, and quality. Produces perfectly round globes within 30 days after sowing. Has brilliant cardinal red skin and pure white flesh of icy brittleness and a snappy flavor. Pkt. 10c; oz. 20c; ½ lb. 50c; lb. $1.50.

857 Spinach—Viking
In this new Spinach we have a wonderful combination of the long-standing qualities of King of Denmark, with the heavy yield of Thick-Leaved or Virolay. Though thick-leaved it will cook exceptionally tender and it also is easily washed clean of sand or soil in preparation for the table. The plants are very large and most attractive for the color of the leaves is a beautiful dark green. This color is well retained after cooking which gives it a most appetizing appeal when served. Viking is a most profitable new Spinach for the home gardener. Pkt. 10c; oz. 15c; ½ lb. 35c; lb. $1.00.

915 Tomato—Italian Canner
A very distinct variety bearing an enormous crop of medium-sized bright red fruits of a distinct oblong shape. The interior of the fruits is solid and pulpy. Splendid for salads, cooking, and canning whole. Pkt. 15c; oz. 30c; oz. 50c; ½ lb. $1.50.

926 Tomato—Marhio
Attractive round fruits with a beautiful thin bright pink skin and bright pink flesh. Solid and juicy. A productive variety showing the same wilt-resistant quality as Marglobe. Pkt. 10c; ½ oz. 30c; oz. 50c; ½ lb. $1.50.
Achimenes

This is closely related to the Gloxinia and it will grow best under similar cultivation. Also suited to rock gardens in semi-shade. See cultural notes on Gloxinia in our book “Dreer’s Hints on the Growing of Bulbs.” For best effect the small rhizomes should be planted 3 or more to a pot. Blooms in 10 weeks.

Dainty Queen. Large pure white flowers with pink eye.
Galatea. Lovely large blooms of a rich deep lavender.
Magnifica. The flowers are a charming violet-blue.
Purity. This white-flowered variety has many friends.
Purple King. A good rich shade of purple.
Supreme. Lavender, somewhat lighter in the center.

*Any of the above: 50c each.
Set of the 6, one each, for $2.50.*

Amaryllis—Hippeastrum

Belladonna (Bella-donna Lily). Beautiful silvery white flowers turning to soft rose as they age. This variety is perfectly hardy when planted in a well drained situation and protected with a covering of 2 to 3 inches of leaves during the winter months. It prefers a rich sandy loam.

Hali (Lycoris Squamigera). Scarce hardy Amaryllis with large fragrant pink blooms during the summer. The spring foliage dies down before the blooms appear. $1.25 each; $12.50 per doz.

Dreer’s Hints on the Growing of Bulbs

An interesting and helpful booklet on the culture of bulbs. Includes summer-flowering tender and half-hardy varieties as well as the hardy kinds which are planted in the fall for spring and summer blooming. Freely illustrated. Price 25 cents or sent free upon request if your order of bulbs amounts to $1.00 or more.

Dreer’s Superb

Summer-Flowering BULBS

The summer-flowering bulbs represent a valuable class of plants which has a great appeal to many gardeners because with bulbs good results are obtained easily and quickly whether they are grown outdoors in the garden or in pots indoors. There are many interesting and showy subjects given on these pages, but we wish to call to your special attention our list of Dahlias and Gladiolus which contain the finest and newest sorts.

Dreer’s Superb

Tuberous-Rooted Begonias

This charming class of Begonias is perhaps the most handsome of all the summer-flowering tuberous-rooted plants. They are principally used for planting in the semi-shaded porch or window boxes but are also fine in outdoor beds located in a partially shaded place where they will bloom continuously.

Dreer's Select Dahlias

The varieties which we offer have been chosen with special care. They have been thoroughly tested and may be depended upon to give the utmost satisfaction to the home gardener. Among the varieties you will recognize a number of consistent prize winners at the flower shows.

Realizing the deserved popularity of the Miniature and Pompon types we have given them special attention. The new dwarf Dahlias for the garden introduced by us last year have met with such universal approval that we have prepared a large stock for this year's sales.

Excepting only a few novelties we can supply all varieties as Tubers which are ready for delivery at any time. Those which are offered as plants will be ready for delivery in May.

Twelve Superb Double Miniature Dahlias

These Miniature Dahlias produce flowers averaging less than three inches in diameter. They are now available in many different shades and types. They are delightful subjects for the garden and yield a great abundance of cutflowers for home decoration.

Baby Beauty. A lovely miniature replica of the popular Jersey's Beauty with flowers only three inches in diameter. The plants grow about two feet high. The color is the same beautiful bright pink with salmon suffusion as that of Jersey's Beauty.

Baby Royal. Of semi-Cactus form. The deep well-formed flowers are bright salmon-pink shaded with apricot and displaying a rich yellow tone at the base of the petals. Extremely and deservedly popular.

Bordeau. Deep claret red flowers borne on wiry stems.

Donau. A dainty variety with silvery soft rose flowers gracefully displayed on wiry stems.

Fred. A vigorous free-flowering English variety with perfectly formed decorative flowers of a cheerful salmon-rose color.

Leiden's Miniature. A beautiful salmon-rose Cactus variety with strong wiry stems.

Little Jewel. Refined and very pretty. Of light pink color.

Dahlias by Mail. All Dahlias offered in this catalog are sent "Not Prepaid" unless you add to your remittance 10% (15%, west of the Mississippi) of the catalog price to cover postage and special packing. Minimum charge 10 cents.

Six New Double Miniature Dahlias

The six varieties of Miniature Dahlias offered in this set are particularly meritorious. Several are now offered for the first time. They can be supplied as green plants only.

Baby Sagamore. A Formal Decorative identical with the well known variety Sagamore except in size. The deep orange flowers are less than three inches in diameter.

Coralette. A very fine salmon-rose of Formal Decorative form.

Corinna. An excellent yellow Formal Decorative.

Fairy. Attractive pink flowers of Formal Decorative shape.

Persimmon. Orange-red Formal Decorative of excellent form and habit.

Any of the above, Green plants only, ready in May: 5c each; $5.00 per dozen. Any six for $2.50.

Miniature Dahlia—Bishop of Landaf

The sensational effectiveness of this charming variety has made it one of the most popular sorts for garden use. The bright scarlet flowers with deep garnet colored center harmonize wonderfully with the deep bronze lacinated foliage. Tubers 5c each; plants ready in May 35c each.

New Dwarf Dahlias for the Garden

This wonderful new race of Dahlias introduced by us last year has remarkable value for garden planting and home decoration. The plants form compact bushes seldom more than two feet high. They begin blooming when only a foot high and flower continuously from early summer until frost.

Christine. Small pure white flowers borne in greatest profusion.

Elsie. Deep golden yellow center and rich orange-carmine tips.

Gertrude. Rich sulphur yellow flowers of attractive form.

Kate. A charming variety with showy orange-scarlet blooms.

Rosalie. Lilac-rose blooms shading lighter toward the center.

Ursula. Intense rich crimson with carmine reverse.

Tubers of any of the above: $1.00 each; 6 for $5.00. Plants, ready in May: 50c each; 6 for $2.50.

Easter Greeting. The original variety of this new type, introduced for greenhouse forcing for Easter. Tubers, ready at any time: 75c each; $7.50 per dozen. Plants, ready in May: 40c each; $4.00 per dozen.

Maria. A greatly improved type of Easter Greeting, producing larger flowers which are more double. Tubers: $1.00 each; $10.00 per dozen. Plants, ready in May: 50c each; $5.00 per dozen.

If Dahlias are wanted by Parcel Post add postage as explained above.

Nesthaekchen

Nesthaekchen (Nestling). An extremely satisfactory Miniature Cactus-flowered variety with creamy amosio flowers suffused with pale rose. Very free.

Paddy. A cheerful variety of bright flesh color.

Red Head. A showy Miniature Dahlia of rich brilliant red color.

Roeschen (Little Rose). Graceful blooms of an appealing light rose color.

Sanhican's Sweetheart. Beautiful, free flowering, yellow Cactus type.

Tubers of any of the above: 35c each; $3.50 per dozen. Any six for $1.75.
Eight Reliable Cactus Dahlias

The eight varieties selected of this type have proved themselves of particular merit for the garden. The graceful formation of the flowers has endeared them to many.

Abendsonne. This makes a very attractive plant with medium-sized bright orange-scarlet flowers produced on long wiry stems which makes them ideal for cutting. Tubers, $1.00 each.

Ballego’s Surprise. A marvelous snow white Cactus variety of very recent introduction. A perfect cutflower with wiry stems. Of unusual charm and excellent habit. Tubers, $2.00 each.

Franz Berger. Narrow, twisted, bright scarlet petals with rosy flesh reverse. The blooms measure 8 to 10 inches in diameter. Tubers, 50c each.

Frau O. Bracht. One of the most popular varieties. A clean-cut Cactus of most desirable form. The color is delicate primrose yellow. Tubers, 75c each.

Gold Standard. A warm buff shaded with amber and gold. A consistent prize winner. Tubers, $2.00 each.

Miss Elsie Jane. Medium-sized flowers of an appealing shrimp-pink color with cream shading in center and tipped violet-rose. Outstandingly dainty and attractive. Tubers, $1.00 each.

Paul Pätzler. Tender rose flowers with lilac suffusion on strong wiry stems. Most beautiful in form and color. Free blooming, shapely plants. Tubers, $1.00 each.

Salmon Giant. Large, showy, clear salmon-pink suffused with salmon. The flowers are produced freely on compact vigorous plants. One of the very finest large-flowered garden varieties. Tubers, $2.00 each.

Special Offer. One each of the above Eight Reliable Cactus Dahlias, value $10.25, for $9.00.

Twelve Superior Decorative Dahlias

From among the more recent Dahlia introductions, we have selected this outstanding dozen of the Decorative type as most worthy of cultivation by the amateur who desires a highly effective display in the garden and wants a type well suited to occasional cutting for house decoration. All are vigorous growers that need no coaxing to get them to give the best results.

Anna Benedikt. A magnificent dark red with stems that are always erect. Strong robust plants with large healthy foliage. Tubers, $1.50 each.

Blue Jersey. An exact counterpart of the most popular Jersey’s Beauty except in color which is a clean attractive lilac. Tubers, 75c each.

Dahladel Gold. Truly enormous flowers of golden yellow with darker center and coral suffusion. One of the outstanding exhibition varieties. Tubers, $1.50 each.

Forest Fire. A spectacular Dahlia of golden yellow color with flashes of fiery red throughout. A sensation at the shows and a delight to the gardener. Tubers, $1.50 each.

Frau Marie Ripke. Lovely medium-sized blooms with pointed petals. Bright orange-scarlet and deep yellow bases and tips. Tubers, $1.00 each.

Kentucky. Another counterpart of the wonderful Jersey’s Beauty, which it duplicates in everything but color, being more or a salmon than the type through the infusion of yellow and gold. Tubers, 50c each.

Monmouth Queen. Immense full-centered flowers of great size and depth. A strong growing, free flowering variety producing flowers of a light lemon shade. Tubers, $1.50 each.

Phantom. Long broad petals of deep violet-purple with long white tips. A vigorous grower. One of the most admired varieties. Tubers, $1.00 each.

Satan. An immense scarlet with yellow reverse which shows in the center as the petals unfold. Vigorous and showy. Tubers, 75c each.

The Duchess (Herzogin von Württemberg). Here we have one of the most outstanding and valuable novelties for the garden. A vast improvement in color over Jane Cowl. A very vigorous plant producing an abundance of large showy flowers of deep orange-buff with lighter tips and overlaid with a rosy cast. Tubers, $2.50 each.

White Abundance. Magnificent blooms of pure snow white on healthy plants of extreme vigor. This appears to us the ideal among the better white varieties. Tubers, $2.00 each.

Special Offer
We will supply one tuber each of the above Twelve Decorative Dahlias, value $15.25, for $12.00.
20 Dainty Pompon Dahlias

The rapidly increasing popularity of the small ball-shaped or Pompon Dahlias is justified by the diversity of their use and their adaptability. In the garden they make small decorative plants with an abundance of flowers which are splendid for home decorations, particularly for tables where their size and daintiness makes them most appealing. The small ball-shaped flowers seldom exceed two inches in diameter.

They are offered as tubers ready for delivery at any time, excepting only the two novelties Anna Lee and Morning Mist (second column) which can be supplied only as growing plants deliverable during May.

Aimee. Well-formed blooms of an appealing bright salmon with rich anitoc shading.

Anna von Schwerin. Delicate light rose flowers produced freely upon fine open plants which permits cutting with long stems.

Arthur. Splendid bright red of artistic appeal.

Bob White. A favorite white variety with many cutflower growers.

Dandy. Very pretty, perfectly formed orange blooms.

Dee-Dee. A most unusual and charming light lilac. The only variety that may be classed as blue.

Gretchen Heine. Rose-tinted white, tipped carmine. Free blooming and long stemmed.

Jonkheer von Ottmers. One of the daintiest and most interesting sorts. Lively yellow petals tipped red.

Joe Fette. A perfectly formed and reliable white.

Little David. Brilliant salmon-scarlet flowers carried on strong wiry stems.

Little Edith. Yellow with orange tips. One of the bright ones.

Neatness. Creamy yellow with just a dash of blush pink.

Nellie Frazer. The effect is pink though there is some white variegation.

Nerissa. This approaches perfection. Soft mauve-pink.

Rose Willmouth. Charming pale rose.

Snowclad. A popular white.

Sunbeam. Brilliant crimson-scarlet.

Thilda Luz. A substantial yellow of vigorous growth.

Yellow Gem. A highly popular yellow variety.

*Any of the above* Tubers 25c each; $2.50 per dozen.

Any six for $1.25.

Two Beautiful New Pompon Dahlias

Anna Lee. We discovered this last year and consider it one of the most desirable of the pink Pompons. The plant is healthy and vigorous. The flowers are a luminous clear shade of carmine-rose.

Morning Mist. This impresses us as one of the daintiest of this class of Dahlias. A flower of perfect form and a very pale pink color.

Green plants of these two new Pompons will be supplied for May delivery at 50c each; $5.00 per dozen.

Six Popular Dahlias

These are leaders in the New York and Philadelphia cutflower market which is proof that they are desirable varieties of vigorous, free-blooming habit. They are reasonably priced.

Gallant Fox (Formal Decorative). Of outstanding merit with 6-inch flowers of an entrancing luminous dark red color which is described by some as claret.

Jane Cowl. There is not a Dahlia show where Jane Cowl does not stand out as one of the finest Informal Decoratives we have. The blooms combine a lovely shade of bronzey buff with old gold. Truly remarkable.

Jersey’s Beauty. This grand old favorite is today as popular as ever. Of perfect Formal Decorative form and a beautiful bright pink color. Vigorous and free-blooming.

Myrtle Fisher. This slightly Informal Decorative yellow Dahlia is one of the most reliable for cutflower purposes. Fully double flowers about 6 inches in diameter.

Roycroft. A Semi-Cactus of perfect form producing a profusion of flowers that measure 6 to 7 inches across. Of a deep orange-terra-cotta suffused with rose.

Snowboy. Perfectly formed deep Formal Decorative flowers 5 to 6 inches across. They are a beautiful pure white.

We offer the above in strong tubers only:

25c each; $2.50 per dozen; any 6 for $1.25.
Dreer's Select Gladiolus

Gladiolus are universally appreciated as most useful and satisfactory for garden display and especially as cutflowers for home decoration. In order to secure a continuous supply of flowers, planting should begin in April and continue at intervals of about ten days until early July. Our corms are all of large size, free of thrips and disease.

20 Popular Gladiolus

This is a collection of outstanding popular sorts that have been tested for a number of years and found to give universal satisfaction. They are inexpensive and enable one to have a continuous display throughout the summer until frost. They are all popular cutflower varieties.

Adame. Giant flowers of flaming red. A very showy variety.

America. Splendid large clear pink flowers closely set on a stocky spike.

Charles Dickens. An old favorite with bright aster purple blooms artistically arranged on a long and graceful spike.

Dr. F. E. Bennett. A most dependable variety with bright scarlet blooms displaying white spearhead markings in the throat.

Emil Aubrun. Coppery bronze overlaid with slate color and a faint sheen of rose. Forms a splendid spike.

Giant Nymph. Large blooms of light salmon-rose with a luminous sheen. An exceptionally pretty variety.

Golden Dream. Tall stems well set with rich yellow blooms with beautifully recurved petal tips.

Lavender Bride. A unique and dainty variety with showy lavender blooms overcast with bright rose.

Los Angeles. This old favorite is much admired for the lovely light pink color of its exquisitely finished blooms.

Marmora. Bright blooms of a beautiful silver gray with rosy throat. An unusual color which harmonizes well with other shades. Of sensational size.

Mrs. F. C. Peters. Elegantly formed blooms of a charming orchid lavender color. One of the best in this color class.

Mrs. Francis King. Superb blooms of a rich flaming red color. It ranks as one of the finest of the popular varieties.

Mrs. Frank Pendleton. An exquisite pale salmon-pink with dark markings in the throat. Forms a gorgeous flower spike.

Mrs. Leon Douglas. Huge salmon-rose flowers often heavily splashed with scarlet. Develops truly sensational spikes of artistic proportion.

Peace. This gives a wonderful color contrast as the carmine center accentuates the pure white of the petals. A vigorous grower.

Pfitzer's Triumph. Huge scarlet flowers of velvety finish with shadings of ruby in the throat. It has vigor and size.

Pride of Wanakah. A very attractive free-growing Gladiolus with well-formed large blooms of an exquisite lavender-rose color.

Veilchenblau. A European variety which has made a decided hit on this side of the ocean. Has magnificent dark blue florets.

W. H. Phipps. Imposing tall spikes with as many as 23 florets open at one time. A lovely salmon-rose color.

Any of the above: 3 for 15c; 12 for 55c; 100 for $4.00.

Mrs. Frank Pendleton

Betty Nuthall

6 bulbs are sold at 1/4 the dozen price; 25 bulbs at 1/4 the 100 price
25 Gladiolus Aristocrats

Practically all of the varieties selected for this set have been successfully and repeatedly shown in recent exhibitions. They are conspicuously superior.

Albatross. A tall snow white without a trace of color.

Ave Maria. A large pale blue of very superior form and placement. A splendid variety which provides a lovely contrast to the deeper colors.

Bagdad. Very pleasing smoky old rose blooms of large size. A vigorous grower.

Bill Sowden. Huge flowers of a deep red color well arranged on a compact spike.

Bleeding Heart. Elegant blooms of graceful form and large size. Of a bluish white color with red blotches deep in the throat.

12 Graceful
Primulinus Type Gladiolus

The Primulinus type because of the graceful slender spikes of dainty hooded florets lends itself particularly to graceful table and room decoration. The great variety of mellow colors enhances its usefulness. We offer a collection of twelve select varieties.

Alice Tiplady. An old reliable variety of a saffron orange color.

King of Oranges. Bright glowing rich orange. Very dainty.

Kreilage’s Favorite. The best pure red. Very striking.

Lullaby. Attractive yellow with the petals bordered scarlet.

Mrs. Calvin Coolidge. Delicate salmon-pink with pale yellow throat.

Orange Queen. Showy orange-yellow. A reliable variety.

Queen of Bremen. Attractive rose-pink blooms produced very freely.

Souvenir. A very showy and reliable bright yellow. Most popular.

White Butterfly. Pure white flowers of particularly graceful form.

Any of the above: 3 for 15c; 12 for 55c; 100 for $4.00.

Drer’s Gold Medal Mixed Gladiolus

The constantly increasing demand for our Gold Medal Mixtures has led us to make a special effort this season to prepare a large stock of corns which we feel sure will please our customers not only in quality and variety but also in the matter of reduced price. Over one hundred varieties have been used in varying proportions to make this year’s mixture an outstanding value. They are offered in three sizes, each sure to flower. The largest or #1 size will naturally produce somewhat larger flowers and longer spikes than the #2 and #3, but all will bloom.

The mixture contains all types from the largest Grandiflorus to the daintiest Primulinus.

#1 size, 1½ inches and over in diameter: 40c per dozen; $3.00 per 100.

#2 size, 1½ to 1⅛ inches in diameter: 35c per dozen; $2.50 per 100.

#3 size, 1 to 1⅛ inches in diameter: 30c per dozen; $2.00 per 100.

Make succession plantings of Gladiolus until early July 25
R. M. S. Queen Mary will be the center of attraction in your Rose-garden this year and for many years to come. Rose lovers have clamored for its introduction ever since it was first exhibited in many of the foremost shows throughout the world. Leading rosarians have given it unstinted praise, acclaiming it the most outstanding of the new Roses. It certainly is beautiful beyond description—distinct from anything yet seen in Roses. Its color is a glorious combination of vivid shades, blending rich glowing salmon with an exquisite pure pink and an orange base. The buds are long and pointed and the flowers large and of beautiful form. They are full enough for all purposes, freely produced on strong, vigorous plants, and delicately perfumed.

$2.00 each; $20.00 per doz.

Dreer’s New Improved Extra-Heavy Lawn Mixtures

Weigh 25 Pounds per Measured Bushel

Your lawn represents the most important single feature toward the beauty of your home grounds. It deserves your most careful consideration as its beauty and permanence depend primarily upon the quality of the seed sown. You can rely upon Dreer’s New Improved Lawn Mixtures to give you first-class results. Sow 1 quart to every 200 square feet, 6 bushels per acre.

"The Dreer" Lawn Grass
An Unequalled Mixture for a Beautiful Lawn

"The Dreer" Lawn Grass produces a smooth rich green sod of finest texture altogether free from grasses which are inclined to produce clumps or knots. Such a lawn is bound to enhance your home grounds providing a rich green setting that cannot be achieved in any other way. All grasses included in this superb mixture are permanent, fine-bladed, and of a rich green color. They are strictly lawn grasses. The strong fibrous roots of certain ones take hold of the soil and contribute toward the permanence of the sod. Other grasses, particularly Bent grass, are of creeping habit. They are most essential because they quickly cover the entire surface and weave the sod into a carpet of rich green. Still others help the density and protect the lawn against heavy wear. Those who realize the tremendous importance of a first-class lawn will choose "The Dreer" in preference to all others. Pt. 30c; qt. 50c; 2 qts. 90c; 4 qts. $1.70; peck $3.25; ½ bu. (12½ lbs.) $6.25; bu. (25 lbs.) $12.00; 100 lbs. $47.00, transportation paid.

Dreer’s “Evergreen”
A High Grade Mixture

Though less expensive than "The Dreer" Lawn Grass this superb mixture produces a beautiful and permanent lawn. It is made according to our own special formula and is composed of choice grasses which will produce a lawn of rich green color and velvety appearance. It is composed entirely of choice, thoroughly re-cleaned grasses which accounts for the heavy bushel weight—a feature that insures a good heavy stand from the very beginning. Pt. 25c; qt. 40c; 2 qts. 75c; 4 qts. $1.30; peck $2.50; ½ bu. (12½ lbs.) $4.90; bu. (25 lbs.) $9.50; 100 lbs. $37.00, transportation paid.

"Fairmount Park"
Our Popular Low Priced Mixture

Where large areas are to be seeded or wherever a good stiff covering of permanent and rich green grasses is the main object our special "Fairmount Park" Lawn Mixture should be sown. It is well suited to various soil conditions giving excellent results even on small city grass plots where the soil is frequently rather stiff and heavy. It will form a thick turf in a very short time and can stand considerable hard wear. Pt. 20c; qt. 35c; 2 qts. 65c; 4 qts. $1.15; peck $2.20; ½ bu. (12½ lbs.) $4.00; bu. (25 lbs.) $7.50; 100 lbs. $29.00, transportation paid.

"Shady Place"
Gives A Velvety Smooth Sod

The difficulty of establishing a lawn in a semi-shaded position or in places which are shaded during part of the day is easily overcome by the use of Dreer’s "Shady Place" Lawn Grass Mixture because it is composed of specific kinds of grasses which naturally grow best under such conditions. Dreer’s "Shady Place" Lawn Grass will give you a rich verdant lawn of good appearance. Feed and water the area regularly to stimulate growth. Pt. 30c; qt. 55c; 2 qts. $1.00; 4 qts. $1.90; peck $3.50; ½ bu. (12½ lbs.) $6.50; bu. (25 lbs.) $12.75; 100 lbs. $50.00, transportation paid.
